

We are looking for a qualified expert in textile product finishing technology to conduct a specialized Training of Trainers (ToT) program. This initiative aims to build local capacity across the Republic of Uzbekistan by training specialists who will subsequently act as instructors within the industry.

The training to be conducted covers the following topics:

- *Textile Materials Science:* In-depth study of fibers, knitting fabrics and their properties.
- *Pre-treatment Processes:* Detailed training on desizing, singeing, and alkali stages (boiling, lye treatment, mercerising) for natural fibers, knitting fabrics.
- *Chemical Fiber Treatment:* Specific methods and processes for the pre-treatment of chemical fibers, knitting fabrics.
- *Bleaching and Quality:* Advanced bleaching processes and quality requirements for natural fibers, knitting fabrics.
- *Sustainability & Environment:* Water quality and treatment, and environmental aspects of textile finishing.

Place of implementation:

These workshops will take place in regions of Uzbekistan, Fergana valley, Kashkadarya and Tashkent.

Implementation period:

The workshop will be organized in April 2026 and the subsequent workshops in the course of one week.

Your profile:

- Higher education in textile chemistry, dyeing technology, or related disciplines.
- In-depth knowledge of fiber chemistry and dyestuffs.
- Experience with modern dyeing equipment and automation systems.
- Proficiency in quality control and color standards (e.g., Pantone).
- Knowledge of international sustainability standards (OEKO-TEX, GOTS).
- Experience in conducting training sessions and workshops is a plus.
- Strong communication skills and the ability to teach. Availability for travelling to Uzbekistan
